

DOMUS 14

01.2014

Das renommierte italienische Architekturmagazin domus berichtet in seiner aktuellen Ausgabe über die Capella Granata am Penkenjoch.

Der Entwurf von Mario Botta wurde mit BESTO ZT GMBH als Partner im Sommer 2013 baulich umgesetzt.

Die strenge geometrische Form und die, bis ins kleinste Detail durchdachte Ausführung machen einen Besuch in der Capella Granata zum nachhaltigen Erlebnis.

The image shows a screenshot of the Facebook profile page for the magazine "domus". At the top, there is a cover photo featuring a white architectural sketch of a building with a complex, geometric, crystalline structure. To the left of the cover photo is the "domus" logo in white lowercase letters on a black square background. Below the cover photo, the name "Domus" is displayed in bold, followed by the statistics "225.912 „Gefällt mir“-Angaben · 10.583 sprechen darüber". To the right of the name are three buttons: "Gefällt mir" (with a thumbs-up icon), "Abonnieren" (with a bell icon), and "Nachricht senden" (with an envelope icon and a dropdown arrow). Below this information is a row of four tabs: "Magazin" (with a brief description: "Founded in 1928 by Gio Ponti, Domus magazine remains one of the most authoritative voices in the fields of architecture and design – an internationally recognised"), "Fotos" (with a thumbnail image of a building), "„Gefällt mir“-Angaben" (with a thumbs-up icon and the number "225"), "Pinterest" (with the Pinterest logo), and "Videos" (with a thumbnail image of a building and a dropdown arrow showing "1").
